## Session 1: Pineapple Punch

Many quilters have "pined away" to make a Pineapple quilt, but have been intimidated by the tiny pieces and complex piecing. Now, any quilter can create this classic beauty. Using 2 1/2" strips and easy, precise piecing instructions, Julie will guide you to success—simply. Whether you choose to use a specific color palette, or an anything goes scrappy approach, you are certain to fall in love with this perfect pineapple project (say that fast 3 times!).

## Session 2: Tropical Lanterns

Let's get the party started -- Hawaiian-style! All you need is a stack of tropical print fat quarters and some background. With some easy piecing and a little time, you will be ready to light up the night!!
